Jongny, June 30 2022

Latest upgrade (v4.11430u2022b30) available for:

Windows 7 (?), 8 (?) & 10 (64 bits), Linux Ubuntu 16.xx or later (64 bits), MacOS-X 10.8.x (Mountain lion), 10.9.x (Mavericks), 10.10.x (Yosemite), 10.11.x (El-Capitan), 10.12.x (Sierra), 10.13.x (High-Sierra), 10.14.x (Mojave) & 10.15.x (Catalina). MacOS 11.0.1 (Big Sur) is also supported on Intel based Mac (but not fully tested yet), Apple M1 not yet supported.

These versions should replace previous versions and are available at:

http://www.jems-swiss.ch/Home/jemsv4_11430u2022.htm

MacOSX Catalina is now supported.

This version requires a new license code (for users of jems version earlier than 4.8030) and corrects a bug introduced in previous versions by the java obfuscation program. Must be installed since it improves speed and parallel calculations (CBED, Transfert Function, …).

Installation docs available at:
